THE ARTWORK

With an ode to the beginnings of coffee and the coffee house industry, The Black Penny artwork is traditional in style and subject, linking back to it's history, connecting times present and past to celebrate the coffee trade. With the renaissance style being integral to The Black Penny interiors, we link back to Ozdemir of Pasha's love for coffee, his bohemian in fluence throughout Europe for rich discoveries and thank him.

PENNY UNIVERSITIES

The first wave of coffee shops to arrive in England were as much a place to signify a revolutionary movement as they were a place of comfort. Anyone was welcome in the Coffee House; whether you were an aristocrat or a soot stained street hustler, all you needed was a penny. And so ever since, the traditional term for coffee shops has been Penny Universities.
